OBJECTIVE

At TRIO VILO VENTURE, our primary objective is to excel as a premier contractor and supplier, offering unparalleled services in Engineering & Construction . Additionally, we aim to foster job opportunities for the youth, cultivating a skilled workforce in Malaysia. Our dedication lies in meeting and exceeding the needs of our clients while upholding the highest standards of quality and professionalism.

MISSION

Driven by a commitment to excellence, our mission at TRIO VILO VENTURE is clear and unwavering. We strive to consistently deliver exceptional services that surpass the expectations of our clients. By prioritizing client satisfaction and adhering to the highest standards of professionalism, we aim to establish long-lasting relationships built on trust and mutual respect.

VISION

Our vision is to emerge as the foremost and most trusted provider of quality services in the fields of Engineering & Construction. We envision a future where TRIO VILO VENTURE is synonymous with reliability, innovation, and excellence in every endeavor we undertake.

OUR PRINCIPALS

SHANDONG KANGYU
PIPE INDUSTRY CO.,LTD

IMPREG GROUP

PRIMUS LINE GMBH

OUR CLIENTS

SERVICES

We are dedicated to delivering top-tier solutions across multiple sectors. Our expertise spans a variety of essential services that meet both industry standards and government requirements. Whether it's infrastructure development, government projects, or civil engineering, our commitment to quality and precision ensures every project is completed with excellence.

Our core services include:

CABLING

UNDERGROUND UTILITIES

GOVERNMENT GLC SUPPLY

BUILDING & CIVIL WORK

HDPE PIPES

REHAB PIPES

CABLING

Technological Expertise: Specializing in cutting-edge solutions for cabling infrastructure projects.

Precision in Execution: Employing skilled professionals to ensure accuracy in civil construction work.

Innovation Integration: Incorporating the latest industry technologies for optimal project outcomes.

Scalable Solutions: Providing services that can adapt to the evolving needs of our clients.

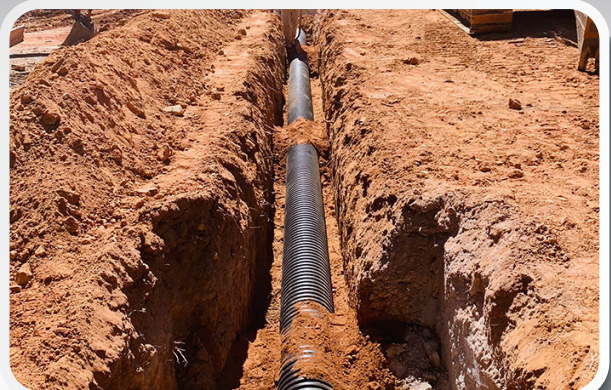

UNDERGROUND UTILITIES

Regulatory Compliance: Adhering to industry regulations to guarantee the safety and legality of underground utility installations.

Reliable Infrastructure: Delivering efficient and dependable solutions for the management of underground utilities.

Safety First: Prioritizing safety measures in the installation and maintenance of underground systems.

Expert Consultation: Offering professional advice and consultation for optimal underground utility planning.

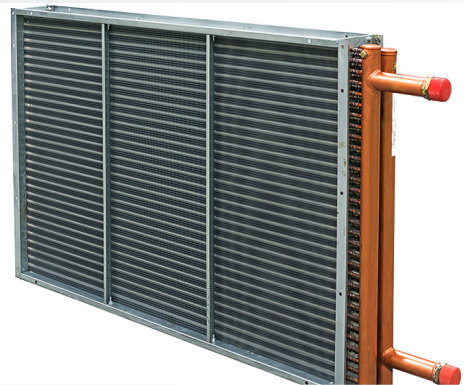

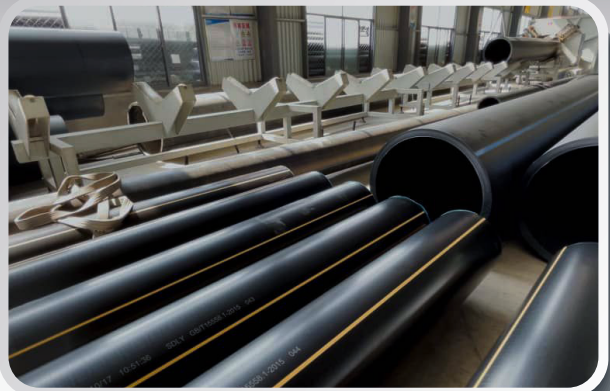

GOVERNMENT GLC SUPPLY

Procurement Excellence: Demonstrating proficiency in government contract procurement processes.

Compliance Assurance: Ensuring adherence to regulatory standards in the supply of goods for government and GLC projects.

Seamless Coordination: Managing the supply chain with precision to guarantee the uninterrupted flow of resources.

National Development Contribution: Playing a crucial role in supporting government initiatives for national development.

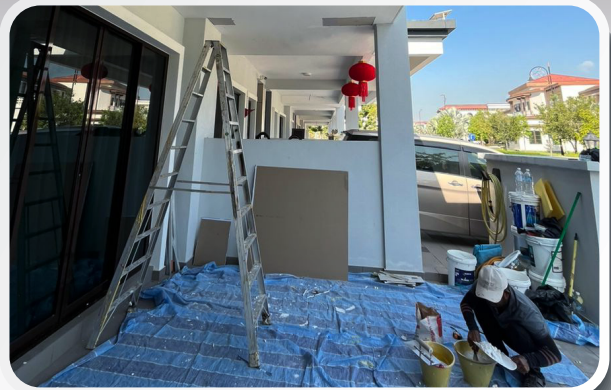

BUILDING & CIVIL WORK

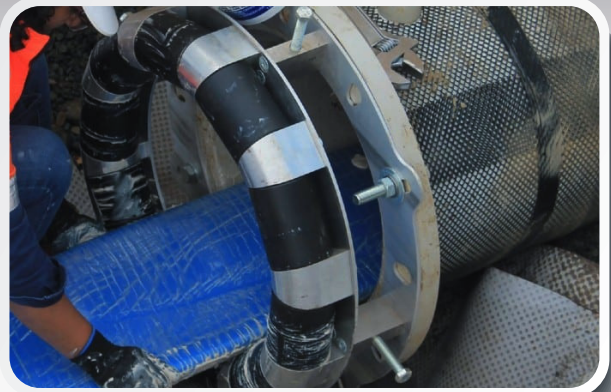

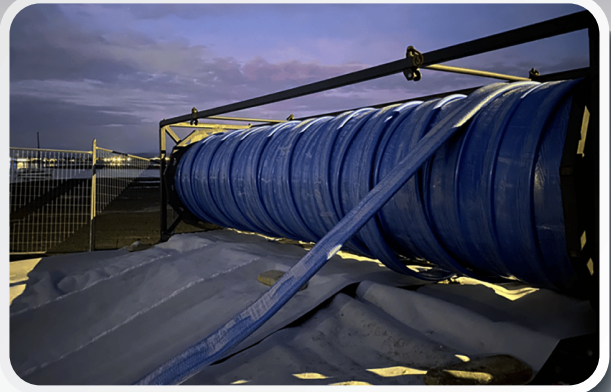

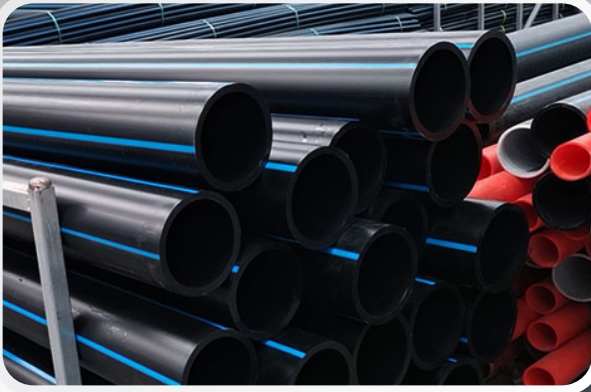

Sustainable Development: Prioritizing sustainability in the construction of buildings and civil infrastructure.

Innovative Design: Incorporating creative and forward-thinking design concepts into infrastructure projects.

Community-Centric Approach: Developing structures that address the needs of both communities and industries.

Quality Craftsmanship: Employing skilled artisans and using quality materials to ensure enduring infrastructure.

HDPE PIPES

HDPE pipes (high-density polyethylene pipes) are durable and versatile plastic pipes widely used for transporting fluids and gases. Known for their flexibility, high strength, and corrosion resistance, they are a popular choice in a variety of industries, including water supply, gas distribution, irrigation, and sewage systems. HDPE pipes are often used to replace aging concrete, steel, or iron pipes due to their lightweight nature, ease of installation, and ability to withstand environmental stressors such as extreme temperatures, chemical exposure, and high-pressure conditions. Additionally, their long lifespan and low maintenance requirements make them a cost-effective and eco-friendly solution for modern infrastructure.

REHAB PIPES

Rehab system is a proven and environmentally orientated technology for rehabilitating ageing pipelines. It is suitable for transporting various media such as water, gas and oil and is approved for drinking water in Germany, Austria and Switzerland as well as many other countries.

The ideal flow characteristics due to a smooth inner coating and the optimised systems for diverse pressure ratings make Rehab a technically and economically optimal solution (depending on the individual case) with a lifetime of more than 50 years. In this way, network operators benefit from reliable operation and a sustainable investment in their pipeline network.

FAKHRI DARMIZAL

Managing Director

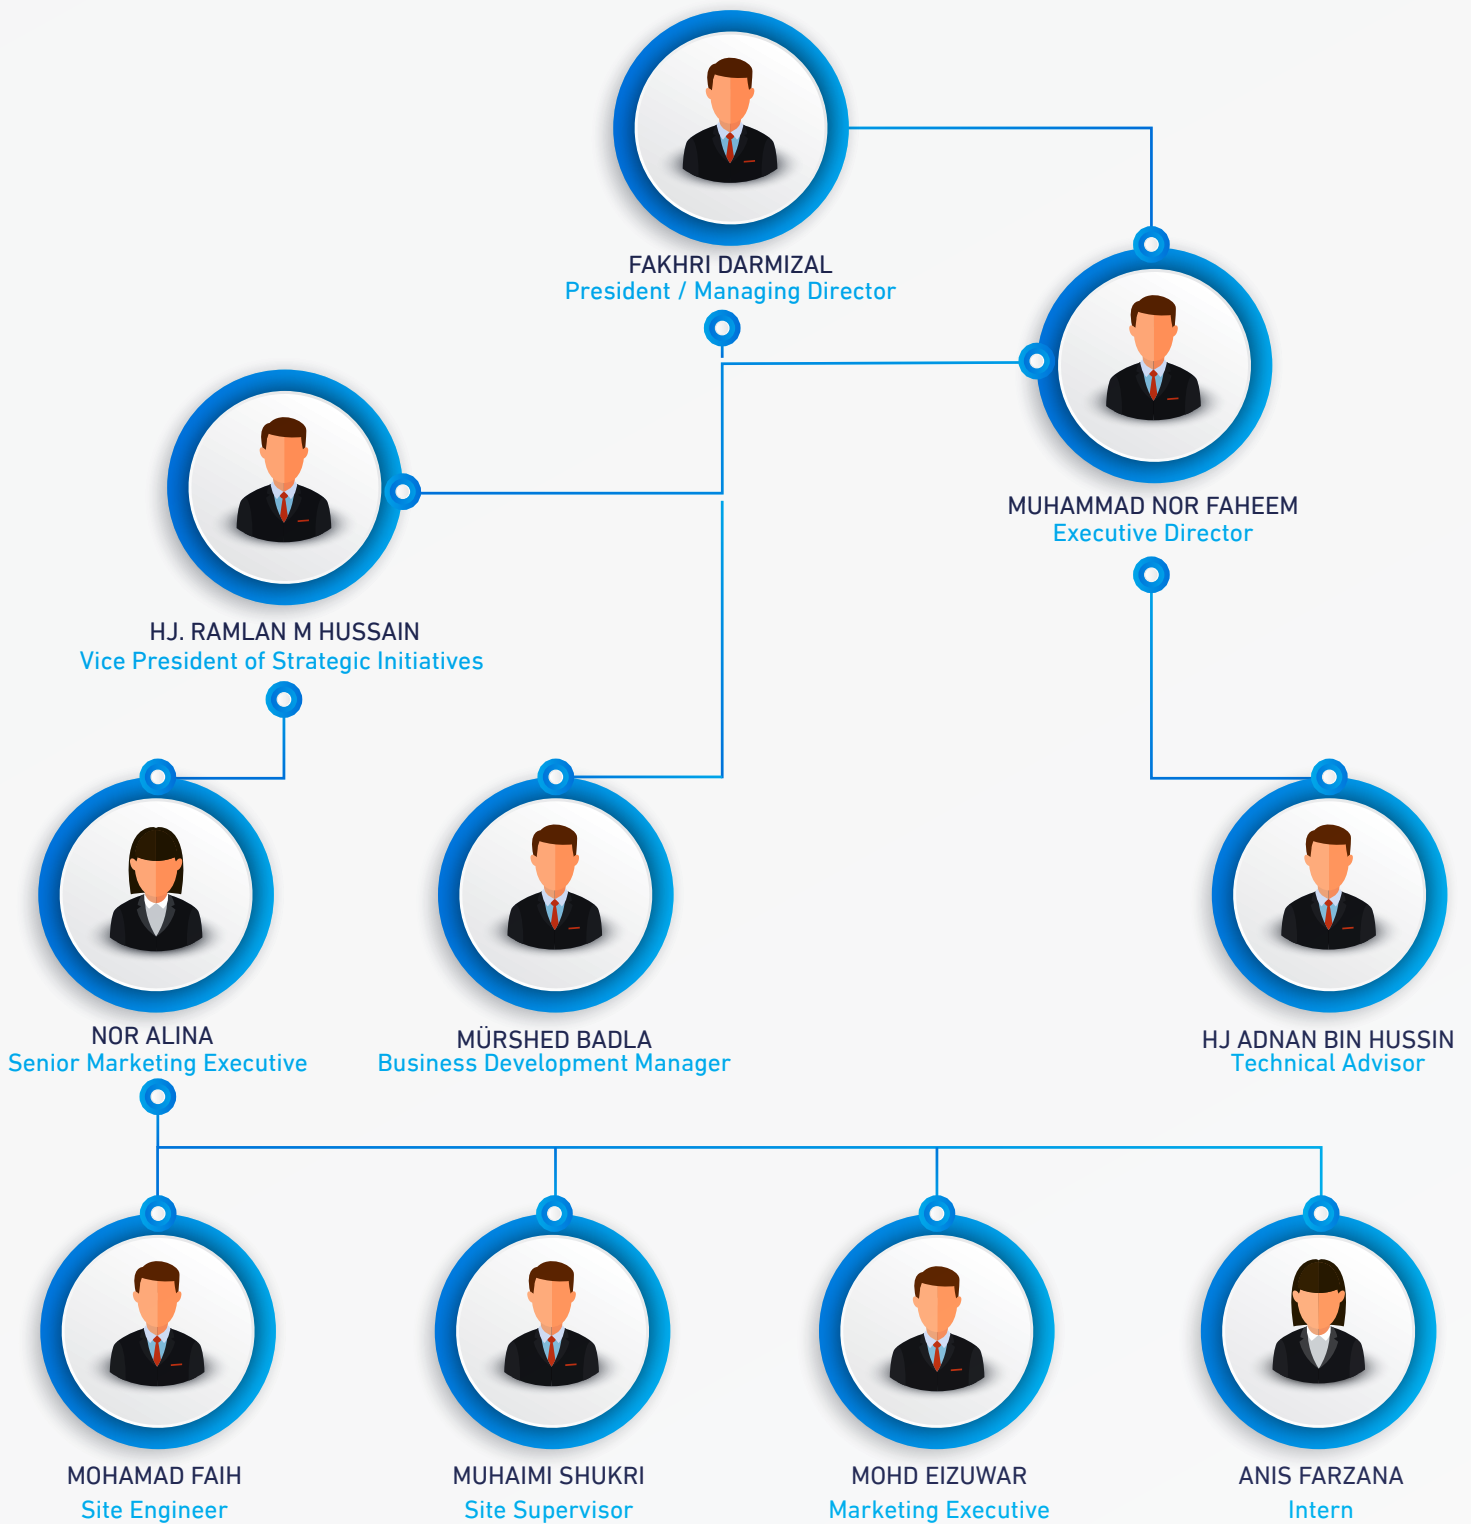

FAHEEM MAHMUD

Executive Director

Driven by a commitment to excellence, TRIO VILO VENTURE strives to surpass client expectations and build lasting relationships through exceptional services and to be synonymous with reliability, innovation, and excellence in every endeavor.
